

→ J2EE Solution Architect (M/W)

You want to enlarge your career scope with joining an ambitious multi cultural team, involved in one of the most ambitious IT program in the European Institutions area? Check this opportunity.

→ Your Mission

- You will be a member of the Steria Luxembourg Development/Skill centre, dedicated to “on the edge” J2EE technologies and application servers.
- You will integrate a team dedicated to the implementation of solutions for EU Member states, aiming at easing the construction of European wide systems.
- You ensure the long term view of the solutions evolution. Therefore you design and plan the necessary tasks in coordination with the project manager & team leaders. Involved in any technical decision, you have the convincing capacities to explain choices & promote them to other team members.
- You are involved in discussions with the customers in order to discuss potential evolutions and doing recommendations. Aware of best practises, you proactively participate in excellence improvement of customers architectures.
- Involved in the continuous quality improvement in the team, you're involved in quality reviews of deliverables. You are also coaching junior members in order to help them to progress in their career path.
- Potential opportunities to do punctual (few days) consultancy missions abroad at customer's premises.

→ Your Profile

- You are Computer Science (or related domain) High School graduate.
- You have at least 5 experience in J2EE technologies and 10 in IT projects. You have proven experience in Architect position and a great general background about computer science and information systems.
- You have an outstanding knowledge in J2EE, XML, EAI, JMS, Web Services, Java Frameworks (Spring, Hibernate, Mule), Maven.
- You have a good level in written and spoken English. Mastering of French is a plus.
- You are open-minded and have good communication skills. Team spirit is a strong requirement.

→ We offer

- A company where strong values are Simplicity, Creativity, Independence, Respect and Openness.
- Real opportunities for learning and taking on new challenges.
- Evolution paths in an international environment.
