

## → Platform Manager/System Engineer (M/W)

You want to enlarge your career scope with joining an ambitious multi cultural team, involved in one of the most ambitious IT program in the European Institutions area? Check this opportunity.

### → Your Mission

- You will be a member of the Steria Luxembourg Development/Skill centre, dedicated to “on the edge” J2EE technologies and application servers.
- You will integrate a project dedicated to the implementation of solutions for EU Member states, aiming at easing the construction of European wide systems.
- You will be responsible for the availability and the efficiency of the entire IT infrastructure: development, integration & tests platforms, running on Unix-based systems. This Infrastructure is based on Databases (Oracle Databases, DB2), Application servers (Websphere, BEA Weblogic, Oracle Application Server), Queuing systems (WMQ, BEA JMS, Oracle Advanced queuing), Configuration management systems (Subversion). A good experience in networks would be a plus.
- You might be involved in architecture recommendations to customers, with potential punctual interventions on site (in Europe).
- You will work strongly with our Architects to constantly improve the processes and for setting up all internal procedures.

### → Your Profile

- You are Computer Science (or related domain) High School graduate.
- You have 5 years of experience in various development platforms and have developed skills to manage J2EE platform open source tools for Java development teams and you have a good general background about computer science and information systems.
- You are Unix-system oriented and used to work with Databases, Application servers and queuing systems. Ideally you have a correct knowledge of versioning systems and you are eager to learn new technologies.
- You have thoughts and convictions about development process & organization in order to foster excellence.
- You have a good level in written and spoken English.
- You are an organized person, able to plan on long term activities. You're open minded and have good communication skills to liaise with team members.

### → We offer

- A company where strong values are Simplicity, Creativity, Independence, Respect and Openness.
