

Test Analyst (M/F)

If you are an experienced **Test Analyst**, looking for new opportunities to practice and develop your talents, take a look at our Company Profile: Steria is the place for you.

Your Mission

You will be a member of the new Steria Benelux Development/Skill Centre based in Luxembourg.

You will initially be integrated into international projects for the European Commission, involving team members from Steria Europe (Steria Spain, France, Benelux, UK, Germany, etc.) based at multiple development sites.

You will work with the Testing team to assist with the preparation of test plans and the testing of software to company guidelines and standards.

You will work closely with the business analysis team to understand and clarify requirements on behalf of the Test Team.

You will assist in the preparation and maintenance of test definition documents.

You will work on the validation and maintenance of the test coverage matrix and the analysis of test errors and test results.

You will provide feedback to the development team and ensure the work is carried out in accordance with the schedule and the quality requirements.

Your Profile

You have several years of testing experience and functional analysis, preferably in the public services or in the EU institutions .

You have thorough knowledge of structured test methodologies and processes . ISTQB certification will be an asset.

You are fast at understanding the requirements, objectives and the scope of a new project and are able to gather this information using different techniques (documentation, meetings, trainings, etc.).

You are good at writing and structuring documentation, you have strong analytical and synthetical skills .

Basis knowledge of Java, XML and SQL will be highly regarded.

Previous experience with established test tools like Quality Center is an asset.

You commit to quality, have proven problem solving skills and have a thorough approach to work

You enjoy teamwork in an international environment - oral and written communication in English is a must.
